

MOBILE INFRASTRUCTURE
MANUFACTURER • EST. 2003

CORPORATE CAPABILITIES

CUSTOM MOBILE UNITS, ENGINEERED TO ORDER.

Clinics, kitchens, offices, ablutions and banking facilities — designed, built and delivered turnkey for enterprise, public-sector and funder programmes across South Africa and the SADC region.

B-BBEE LEVEL 1 NRCS REGISTERED SABS ALIGNED 1000+ BUILDS

WHO WE ARE

Mobile infrastructure, engineered to order.

Trailored designs and manufactures custom mobile units in our NRCS-registered Gauteng facility — and has done since 2003.

Every build is configured around a client's scope of work, fabricated in-house to South African compliance standards, and delivered nationwide and across the SADC region. A dedicated project manager owns each project from specification through to commissioning. From a single specialised unit to a branded fleet, we make procurement straightforward: clear specifications, predictable lead times, and a single accountable point of contact.

MANUFACTURING SINCE

7days

STANDARD BUILD TIME

Level 1

B-BBEE CONTRIBUTOR

Trailored is the partner organisations choose when they need a compliant, road-legal environment built to specification and ready to operate on arrival — wherever the work takes them.

A manufacturing partner built for corporate procurement.

Five reasons enterprise and public-sector buyers standardise on Trailored.

01 – COMPLIANCE

NRCS-registered & SABS-aligned

Built in a registered facility to applicable South African standards, with road-worthy certification included on delivery.

02 – ACCOUNTABILITY

Dedicated project manager

One accountable contact orchestrating specification, build, compliance, logistics and commissioning.

03 – ASSURANCE

12-month warranty & support

Every new build carries a 12-month warranty, backed by maintenance, repairs and upgrades for the life of the unit.

04 – FLEXIBILITY

Modular by design

Interiors configured for clinics, offices, ablutions, kitchens, banking and fully bespoke programmes.

05 – ENGINEERING

Precision fabrication

Automotive-grade chassis, reliable utilities and durable finishes built for daily operation.

06 – TRANSFORMATION

B-BBEE Level 1

A Level 1 contributor — supporting your transformation targets and preferential procurement objectives.

From brief to commissioned, with one team accountable.

A single, predictable process — so you always know what happens next.

01

Consultation & scoping

We map your scope of service, site conditions, compliance needs and budget into a clear brief.

02

Design & specification

Interior layout, equipment, utilities and branding documented and signed off before fabrication begins.

03

In-house fabrication

Built in our NRCS-registered facility — standard models completed in 7 working days.

04

Compliance & registration

Road-worthy certification, trailer registration and licensing handled on your behalf.

05

Delivery & commissioning

Delivered nationwide and across SADC, then commissioned and handed over ready to operate.

06

Warranty & ongoing support

A 12-month warranty plus maintenance, repairs and upgrades for the lifetime of your unit.

INDUSTRIES WE SERVE

Purpose-built for the sectors that move the region.

Eight industries, one manufacturing partner — each unit configured to the way the sector works.

Healthcare

Mobile clinics for consultation and treatment, built to medical-grade, easy-clean standards.

Marketing & Events

Stages, activation trailers and VIP facilities that travel with the brand.

Financial Services

Secure mobile ATM and banking units that extend financial access.

Funeral Services

Dignified mobile facilities and refrigeration for service providers.

Mining & Construction

Site offices and ablutions engineered for remote, demanding operations.

Retail

Branded mobile stores and boutiques that bring the storefront to the customer.

Education

Mobile classrooms, libraries and computer labs configured to programme.

Government

Mobile offices, clinics and service units that reach communities.

WHAT WE BUILD

A unit for every operation.

MOBILE CLINICS & HEALTHCARE UNITS

Consultation and treatment environments with medical-grade, easy-clean finishes, integrated power for diagnostics and refrigeration, and a telehealth-ready fit-out.

- MEDICAL-GRADE FINISHES
- COLD-CHAIN READY
- TELEHEALTH-READY

COMMERCIAL MOBILE KITCHENS & FOOD TRAILERS

Health-inspection-ready interiors with correct gas and electrical provisioning, and efficient prep, cooking and service zones — registered and road-legal on delivery.

- INSPECTION-READY
- GAS & ELECTRICAL COMPLIANT
- REGISTERED FOR THE ROAD

MOBILE OFFICES & SITE FACILITIES

Climate-controlled offices with reliable power, connectivity and durable, low-maintenance finishes — built to be towed and redeployed as operations move.

- CLIMATE-CONTROLLED
- POWER & CONNECTIVITY
- TOW-AND-REDEPLOY

WHAT WE BUILD – CONTINUED

Specialised & bespoke.

MOBILE ABLUTIONS & VIP TOILETS

Finished ablution and shower units with water management, separate facilities and durable fittings — built for events, sites and remote deployment.

WATER-MANAGED

DURABLE FITTINGS

EVENT & REMOTE-READY

MOBILE ATM & BANKING UNITS

Secure units engineered with layered physical security, thermal regulation and power redundancy — extending banking beyond the branch, reliably.

LAYERED SECURITY

THERMAL REGULATED

POWER REDUNDANCY

MOBILE RETAIL, STAGES & BESPOKE BUILDS

Branded retail and boutique units, hydraulic-assisted stages and fully custom programmes — fabricated to your brand for repeat deployment and national rollout.

FULL CUSTOM BUILD

BRAND-FINISHED

NATIONAL ROLLOUT

COMPLIANCE & ACCREDITATION

Procurement-ready, by design.

We make it simple for enterprise, public-sector and funder teams to approve, onboard and buy with confidence.

CROSS-BORDER DELIVERY

15 days

DELIVERED TO BOTSWANA*

Transport is quoted on a distance basis to your delivery address. For cross-border orders we coordinate documentation and delivery end-to-end. *Two custom trailers delivered to a client in Botswana within 15 days — Google review, 2024.

CLIENT FEEDBACK

Trusted by operators across the region.

A 4.8-star average on Google — from the businesses and entrepreneurs we build for.

"I got my customized coffee and boba trailer today. Could not be any happier. From reception to the builders, the entire team was just amazing."

Craig Mthae
KYNETIC COFFEE • GOOGLE REVIEW

"Even though I was abroad, the team communicated every step and delivered both custom trailers to Botswana in the exact condition I requested — within 15 days."

Keatametse Cay Kedibonye
BOTSWANA • GOOGLE REVIEW

"Highly professional, making the entire process seamless. The trailer is top-notch — sturdy, reliable and exactly what we needed to take our business to the next level."

Phina Ngolele
GOOGLE REVIEW

"Professional service and good communication. I ordered my trailer and in two weeks it was ready with all the requested customisations. Neat, clean and beautiful."

Sany

The answers buyers ask first.

Is Trailored B-BBEE compliant?

Yes — Trailored is a B-BBEE Level 1 contributor, helping clients meet transformation goals while receiving high-quality units.

Are units compliant with SA regulations?

Every unit is built in our NRCS-registered facility and aligned to applicable SABS standards. Gas and electrical certificates are issued at additional cost where required.

Where do you deliver?

Nationwide across all provinces, plus neighbouring SADC countries. Transport is quoted by distance to your delivery address.

How long does a build take?

Standard models are completed in 7 working days. Highly customised specifications are confirmed during consultation.

Are registration & roadworthy papers included?

Yes. We handle trailer registration and licensing, roadworthy papers are included where applicable, and ownership transfers to you on delivery.

What do you need to prepare a quote?

Unit type, size, equipment list, budget range, delivery area, branding requirements, and the company details for the quotation.
